

Zombie Girl, Creature Of The Night

I am alone here in darkness
I embrace the night,
Staring up at the sky
I can't help wonder why,
Nobody's daring to love me
'Cause what I am.
A creature of the night
I've never seen the light.

Please help me understand
Why I have to be all alone,
Why can't somebody love me?
Please come and set me free.
I will be here for you take care of you through all the nights,
Why can't somebody love me?
Please come and set me free.

I am a creature of night.
No love for me in sight.
I am a creature of night,
There's no love for me in sight.

I will be lost here forever
Underneath the stars,
Waiting for the one
Before the rising sun,
It's getting colder,
Inside her smolder,
And all I hear them say is evil lies within her.

Please help me understand
Why I have to be all alone,
Why can't somebody love me?
Please come and set me free.
I will be here for you take care of you through all the nights,
Why can't somebody love me?
Please come and set me free.

I am a creature of night.
No love for me in sight,
I am a creature of night,
There's no love for me in sight.
I am a creature of night.
No love for me in sight,
I am a creature of night,
There's no love for me in sight.
