

# Zombina And The Skeletones, The Kids Are All D

Comin' on radio waves  
Transmitted from space  
Another death ray jingle for you deadbeats  
We're sowing the seeds  
Of a new disease  
A whole new breed of mutations  
The root of all evil has turned into another ugly tree  
We got a death ray

We got the drop on the deadbeats  
We got the drop on the dead meat  
We got the souls of the whole damn world  
In our hands...  
And the death rays comin' too quick to run from it  
Go!

The sun is burnin' with hate  
For this human race  
Put on a happy face as you burn alive  
Yeah, deathray kids ain't got no teeth  
But they all got razor smiles  
On their faces, we scraped them all off the classroom walls  
I blame the parents...
