

Zona Jones, Two Hearts

I was born a dreamer
Seemed like every day
My mind came up with something new
But this time it's my heart
With a dream that's here to stay
There's a chance this one might come true

I could see me being with you
For the rest of my life
Two hearts, One love
And I could see you loving me too
Sure would be nice
Two hearts, One love, That's us

I can see my lucky stars when I gaze into your eyes
Twilight shadows hold as tenderly
It's so easy to imagine
You here by my side

As I turn out the lights and fall asleep

I could see me being with you
For the rest of my life
Two hearts, One love
And I could see you lovin me too
Sure would be nice
Two hearts, One love, That's us

I could see me being with you
For the rest of my life
Two hearts, One love
And I could see you lovin me too
Sure would be nice
Two hearts, One love, That's us
Two hearts, One love
Two hearts, One love, That's us
