

Zornik, Better Off Without You

am I dreaming people are passing the loneliness
am I different, who's to blame for all of this.
do you think I don't exist.
cause there comes the place.

i'm better off without you, yes i'm better of alone.

i'm better off without you and i'm better off when i'm on my own.
it seems to me that I have been I fool for all i've said to you.
i'm better off without you and i'm better off when i'm on my own.
it seems to me that I have been I fool for all i've said to you.

am I dreaming where is freedom for all of us.
our love kills the place.

i'm better off without you, yes i'm better of alone.
i'm better off without you, yes i'm better of alone.

i'm better off without you and i'm better off when i'm on my own.
it seems to me that I have been I fool for all i've said to you.
i'm better off without you and i'm better off when i'm on my own.
it seems to me that I have been I fool for all i've said to you.

i'm better off without you and i'm better off when i'm on my own.
it seems to me that I have been I fool for all i've said to you.
i'm better off without you and i'm better off when i'm on my own.
it seems to me that I have been I fool for all i've said to you.
