

Zox, Rain On Me

Let the color all drain out
Won't you draw the curtains down on me?
Silence never spoke so loud
It's what i need
So let me be
With my disease
Please don't let it rain on me
Because i realize i can't rely on you for what i need
Please don't let it rain on me
Cause i ain't got no shelter from this storm
On market street cars all stand still
This city is so beautiful tonight
I'll drink you up to get my fill
But i don't beleive
It's come to these
So naturally
Please don't let it rain on me
Because i realize i can't rely on you for what i need
Please don't let it rain on me
Cause i ain't got no shelter from this storm
Into this mind and body i was born
And i realize by know that i have lost control
But i'll be okay
I know i'll be okay
