## Zox, Rain On Me

Let the color all drain out Won't you draw the curtains down on me? Silence never spoke so loud It's what i need So let me be With my disease Please don't let it rain on me Because i realize i can't rely on you for what i need Please don't let it rain on me Cause i ain't got no shelter from this storm On market street cars all stand still This city is so beautiful tonight I'll drink you up to get my fill But i don't beleive It's come to these So naturally Please don't let it rain on me Because i realize i can't rely on you for what i need Please don't let it rain on me Cause i ain't got no shelter from this storm Into this mind and body i was born And i realize by know that i have lost control But i'll be okay I know i'll be okay
