

# Zuba, Bring Your Love To Me

1) Had a dream of you the other night  
Of your vibe the way you smile  
More of a feeling than a memory  
A groove of love just me and you

2) I think of having you next to me  
A soft caress your warm embrace  
Of silent walks and gentle eyes

That pull my heart closer to your love

Chorus -  
Bring your love to me baby right now  
ooo ooo bring your love to me
