

# Zuba, Floating Away

1) I'm looking for something  
Maybe for the answers for all the changes in my life  
Searching for a feeling  
And im trying to ride out the storms of my life

Chorus -  
Love and soul, floating away  
Time, be a friend to me...help me through this day

2) Waking alone and empty  
But some would say I wished it on myself  
Memories and illusions  
This house is now free of your things and your smell

Chorus -  
Friends with love, floating away  
I really want to be a friend to you...to help you through this day

Bridge -  
I can feel the sun  
blinding you with reality  
The earth and stars in infinite sky sweeping us away  
I can see it in your eyes

3) In my dream you were flying  
In a capsule that was hurtling you through space  
I kept trying to stop it  
In the speed of the ship was a shadow of your face

Chorus -  
Love and soul, doesnt have to float away  
In time we'll be friends you'll see, i'm living day to day
