

ZUZA BAUM, CALL BACK

I want you to call back
All the anger you are filled with needs to go back
Imma wrap you round with love, Imma love ya
So please stop resisting me coz Imma show ya

I want you to call back
All the anger you are filled with needs to go back
Imma wrap you round with love, Imma love ya
So please stop resisting me coz Imma show ya

What if I say you feel the groove same way as me
I'm waking up and get on flow too quick too easily
What if I say you inspire me, educate me
Im coolin down my breath so not to burn it

I told u lately im aesthetic ain't say im not
Coz I am melting when you take it off and seize the flow
Dispersion of the light and you are the prism
You are the melody that reverberate under my skin

You are the drop of my tear that makes the rainbow start
You are the lack of my pain, you are my little star
You are my small release, my window in the dark,
Im gonna hex you with love

I want you to hold it
To put it in your arms like it's your best friend
I know it's easy to say
You know that I am worth it
To put me in your arms, cause I am your best friend

Alrite Imma love ya
Its alrite Imma love ya

Alrite Imma love ya
Its alrite Imma love ya
