

# Zwan, My Life And Times

My life in the morning sun  
My life in the speeding car  
Too much to lose

My life on the empty roads  
My life in the electric room  
Too much to lose  
Too much to lose

So hear the way that the world is calling  
My life to you  
Show the way that I'll keep it coming  
My life to you  
My life to you  
My life to you

My life in the messy room  
My life in the greasy girl  
My life to you

My life in the wall of shame  
My life in the passing car  
My life to lose  
My life to you  
My life to you

So hear the way that the world is calling  
My life to you  
Show the way that I'll keep it coming  
My life to you  
My life to you

'Cause my life and my love stand for always  
Your love and our love stand for always

Any way that you want it now  
Just say the word you can have it now  
My life to you  
My life to you  
My life to you

My life to you  
My life to you

Any way that you want it now  
Just say the words you can have it now  
Any way that you want it now  
Just say the words you can have it now  
Any way that you want it now  
Just show the world that you want it now  
Anyway that you want it now  
Just show the world you can have it now

My life to you  
My life to you  
my life to you  
my life to you
