## ZZ Top, Lizard Life

I got the attitude And that's all I ever say Don't Have To Tell Nobody How their tail ought to lay Had a sudden revelation The heights that i've sunken down to And I don't mind I can't find My way out of this witch's brew Livin' for the lizard life Livin' for the lizard life I stumbled on the way around My own reality Gettin' right-tightly wound Past the pale of normality I like big İoungin' every day On the iguana side of town The lizard love, it mighty deep Talkin' way underground Livin' for the lizard life I be a reptile all day And it's so fine Ain't no other way Like a life minus mind I prefer reclinin' Beatin' that conga drum And waitin' for a three-point landin' On my sticky tongue Livin' for the lizard life Livin' for the lizard life Livin' for the lizard life I'm livin with a lizard life
